

# The Artisan Session

The Taylor Images Artisan Session, while not as involved as the Master Session, is designed to yield remarkable images at an economical price.

At the initial consultation we will discuss wardrobe props and locations. We shoot either on location or at your own home and will set up whatever lighting is necessary to produce the most pleasing image possible.

At the shoot, we set up the situation and shoot as much as we need to be sure we have a good selection for you to choose from. There is no set number of frames so if we need to shoot more, we will.

After the photoshoot your images will be uploaded to your own personal proof site so you can share in the selection process with your family and friends.

Upgrades are available if you would like to have all of your prints mounted and finished with a protective coating plus you can add a brush stroked texture for a more painterly feel.

If you know you will need more prints than the basic package provides, you can order them at the session and save 30% off the regular price.

## Your personal session:

- Phone session to discuss setting, props, wardrobe and other considerations
- Photoshoot
- Online proofing
- 1 mounted 8x10
